

Solutii inovative pentru managementul apelor uzate

- George Stan,
- Director General Teamnet Engineering

Apa uzata, o problema europeana

Subiect de interes la nivel European =>
directive care impun standarde de mediu
ridicate:

- Directiva cadru 2000/60/EC (apa ca patrimoniu)
- Directiva 91/271/CEE (epurarea apelor uzate orasenesti)

Apa uzata in Romania

Context national:

- problematica tratata reactiv, fiind impusa de UE.
- Cf. Planului de implementare a Directivei 91/271/CEE, epurarea apelor uzate orasenesti va trebui asigurata pentru **76,7%** din populatie in 2015, urmand sa ajunga la **100%** pana in 2018;
- institutiile publice romanesti beneficiaza de instrumente de finantare UE

Apa uzata la nivel industrial

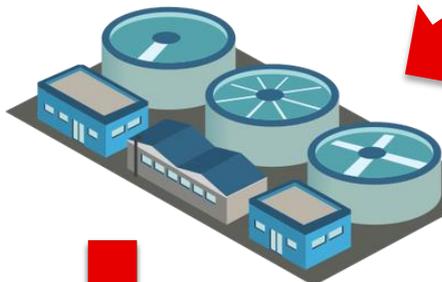

Marii industriasi

Populatie

Micii industriasi

Statie epurare privata

Statie epurare comuna

Abordarea ideala in industrie

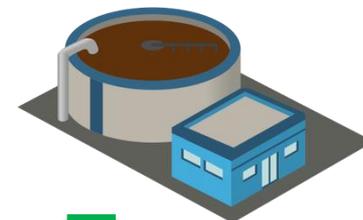

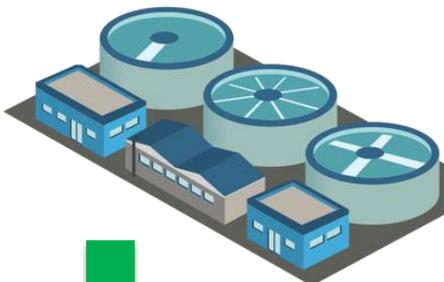

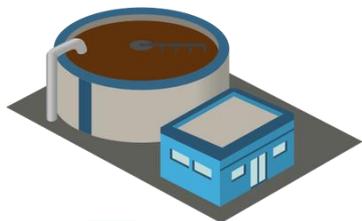

Marii industriasi

Populatie

Micii industriasi

Statie epurare privata

Statie epurare comuna

Statie epurare privata

Provocari:

- Finantare din resurse proprii
- Educare client mijloace fixe

Viziunea Teamnet

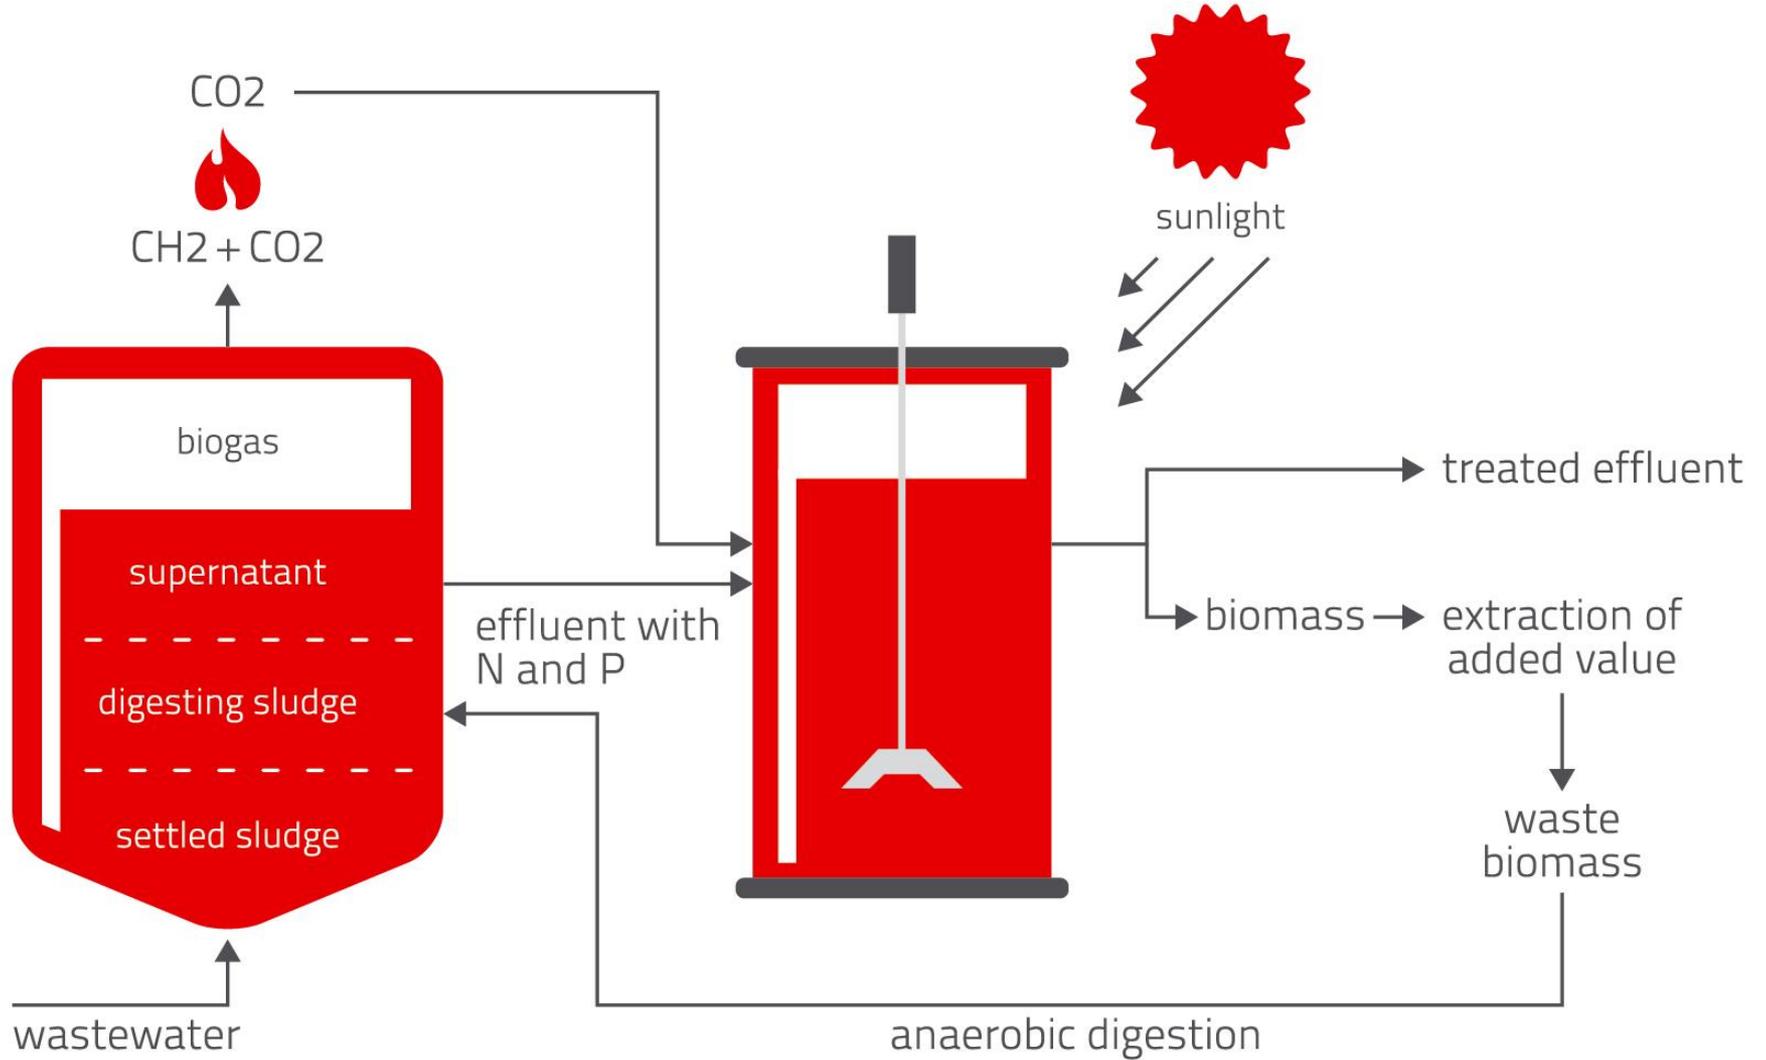

- Incurajarea micilor industriasi in dezvoltarea de statii de epurare personalizate
- Suport in accesarea surselor de finantare pentru acestia
- Adoptarea unei oferte de tip “Everything as a service”
- Inovatie in solutii tehnice care aduc plus valoare

Inovatie in domeniul apelor uzate

- Investim constant in inovatie
- R&D si in engineering
- Proiect BIOCON: transformare ape reziduale in biocombustibil cu ajutorul bio-tehnologiilor

BIOCON

Multumesc!

- George Stan,
- Director General Teamnet Engineering
